CONTENTS OF VOLUME 4

Part 1, May 1958

On the non-linear mechanics of hydrodynamic stability, by J. T. Stuart 1
Heat transfer from surfaces of non-uniform temperature, by D. B. Spalding 22
An extension of the linearized theory of supersonic flow past quasi-cylindrical bodies, with applications to wing–body interference, by R. C. Lock 33
Mixing and chemical reaction in the laminar wake of a flat plate, by S. I. Cheng and A. A. Kovitz 64
Calculations of unsteady viscous flow past a circular cylinder, by R. B. Payne 81
The mean velocity of slightly buoyant and heavy particles in turbulent flow in a pipe, by A. M. Binnie and O. M. Phillips 87
Water waves of finite amplitude on a sloping beach, by G. F. Carrier and H. P. Greenspan 97
Reviews 110

Part 2, June 1958

A simple model of the non-equilibrium dissociation of a gas in Couette and boundary-layer flows, by James E. Broadwell .. 113
The sonic flow about some symmetric half-bodies, by T. R. F. Nonweiler 140
The large eddies of turbulent motion, by H. L. Grant 149
An approximate measurement of the ionization time behind shock waves in air, by Bryan Niblett and Vernon H. Blackman .. 191
Slow viscous flow past a sphere in a cylindrical tube, by Howard Brenner and John Happel 195
The stability of a shear layer in an unbounded heterogeneous inviscid fluid, by P. G. Drazin 214

Part 3, July 1958

Finite amplitude cellular convection, by W. V. R. Malkus and G. Veronis 225
The stability of a two-dimensional laminar jet, by T. Tatsumi and T. Kakutani 261
Characteristics of the equations of motion of a reacting gas, by L. J. F. Broer 276
Instability in slotted wall tunnels, by J. L. King, P. Boyle and J. B. Ogle 283
The propagation of long waves into a semi-infinite channel in a rotating system, by J. Crease 306
The thermal boundary layer on a non-isothermal surface with non-uniform free stream velocity, by E. M. Sparrow 321
On the breaking of water waves of finite amplitude on a sloping beach, by H. P. Greenspan 330
Reviews 335

Part 4, August 1958

On the propagation of shock waves through regions of non-uniform area or flow, by G. B. Whitham 337
The effects of radiative transfer on turbulent flow of a stratified fluid, by A. A. Townsend 361
Shock waves in a dusty gas, by G. F. Carrier 376
On displacement thickness, by M. J. Lighthill 383
Sound propagation in a fluid flowing through an attenuating duct, by D. C. Pridmore-Brown 393
Non-equilibrium flow of an ideal dissociating gas, by N. C. Freeman 407
The equilibrium range in the spectrum of wind-generated waves, by O. M. Phillips 426
Reviews 435

Part 5, September 1958

Energy transfer through a dissociated diatomic gas in Couette flow, by John F. Clarke 441
Two-dimensional planing at high Froude number, by E. Cumberbatch 466
The mixing of ground water and sea water in permeable subsoils, by G. F. Carrier 479
On convection cells induced by surface tension, by J. R. A. Pearson 489
A note on shock flow in a channel, by Roy Gundersen 501
On the melting of a semi-infinite body of ice placed in a hot stream of air, by Leonard Roberts 505
Energy content and ionization level in an argon gas jet heated by a high intensity arc, by Gordon L. Cann and Adriano C. Ducati 529
On the disturbed motion of a plane vortex sheet, by John W. Miles 538

Part 6, November 1958

Two-dimensional incompressible magneto-hydrodynamic flow across an elliptical solenoid, by Nelson H. Kemp and Harry E. Petschek 553
Influence of diaphragm opening time on shock-tube flows, by Donald R. White 585
A modified tangent-gas approximation for two-dimensional steady flow, by G. Power and P. Smith 600
Surface waves on water of non-uniform depth, by Joseph B. Keller 607
Effects of compressibility on a laminar wall jet, by N. Riley 615
A two-dimensional air intake in a sonic stream, by L. E. Fraenkel 629
A note on the compression of air through repeated shock waves, by J. L. Stollery and D. J. Maull 650
Reviews 655
